Warrant for Town Meeting

JANUARY 9, 1913

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, SS.

To George Twigg, a constable of the town of Needham, in said county, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, to meet at the town hall in said town on Thursday, the ninth day of January next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz.

ARTICLE 1. To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary to cover any deficiencies that may appear in the appropriations for the fiscal year ending December thirty-first, nineteen hundred and twelve.

ARTICLE 2. To see what action the town will take in regard to unexpended balances.

ARTICLE 3. To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary to

carry on the several departments of the town for the remainder of the municipal year ending March third, nineteen hundred and thirteen.

Article 4. To hear and act on the reports of town officers and committees.

Article 5. To see what action the town will take relative to the purchase of land for the use of the highway department or pass any vote or votes relative thereto.

Article 6. To see what action the town will take on the following question: "Shall the town vote to increase the school committee from three to six members or take any other action thereto" upon the petition of Arthur G. Curren and others.

Article 7. To see if the town will vote to establish a board of health independent of the selectmen and accept the provisions of Sections 366 and 371 of Chapter 560 of the Acts of 1907 or pass any vote or votes relative thereto upon the petition of George B. Haven and others.

Article 8. To see if the town will vote to authorize the calling of a town primary for the nomination of candidates for town offices and provide official ballots therefor: or pass any vote relative thereto upon the petition of G. Waldo Crawley and others.

Article 9. To act upon the petition presented by A. T. Baker and others on behalf of the New Century Club, namely: that suitable places, one in Needham and one in Needham Heights, be flooded and kept in condition for skating during the winter season.

Article 10. To see if the town will vote to accept Parish street as laid out by the selectmen.

Article 11. To see if the town will vote to accept a

private way as laid by the selectmen from Chestnut street through the property of D. Simon to the property of the First Parish church.

Article 12. To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon appropriations asked for or proposed by the selectmen or by any town officers or committees.

Article 13. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow such sums of money as may be necessary to carry out the above votes under this warrant.

Article 14. To see if the town will vote to accept the tablet as erected at the right of the town hall main entrance, May 30th, 1912, by Ezra N. Fuller Camp No. 77, Mass. Div. S. V. U. S. A., to honor the memory of the men, enlisted from Needham, who fought on land or sea in the Civil War, 1861–1865, upon the petition of Dana L. Southworth and others.

And you are hereby directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting, and also leave a copy at each of the several dwelling houses within the town.

Hereof fail not and make due return of this warrant with your doings thereon unto our town clerk on or before said day and hour.

Given under our hands at Needham aforesaid this twenty-third day of December, A. D. nineteen hundred

and twelve.

WILLIAM A. PROBERT,
[SEAL] HENRY T. CHILDS,
AUSTIN POTTER,

Selectmen of Needham.

Officer's Return

NORFOLK, SS.

NEEDHAM, February 20, 1913.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham, to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, more than seven days before the time of holding said meeting.

JOHN W. CRISP,
Constable of Needham.

A true copy of warrant and officer's return.

THOMAS SUTTON,
Town Clerk.

Record of the Annual Town Meeting

March 3, 1913

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town, on Monday, March 3 A. D. 1913, at forty-five minutes past five o'clock in the forenoon.

The meeting was called to order by the moderator.

Voted to omit reading the articles in the warrant.

The town clerk read the return of the officer who notified and warned the inhabitants.

Article 2. Voted to proceed to vote for the following town officers, viz: — One moderator for one year, three selectmen for one year, three overseers of the poor for one year, one assessor for three years, one member of the board of health for one year, one member of the board of health for two years, one member of the board of health for three years, one town treasurer for one year, one collector of taxes for one year, one auditor for one year, two constables for one year, one member of the school committee for three years, one water commissioner for three years, two trustees of the public library for three years, one park commissioner for three years, one tree warden for one year,

three members of the finance committee for three years, and upon the same ballot to vote "yes" or "no" upon the following question:—Shall licences be granted for the sale of intoxicating liquors in this town?

Pursuant to Sections 209—211 of chapter 560 of the acts of 1907, the selectmen having appointed Francis J. Stanwood, William F. Brown, Evan C. Thorpe and Harold J. Fitzgerald as ballot clerks, they were sworn to the faithful discharge of their duties by the moderator.

The ballots prepared for use at this election by the town clerk were then delivered by him to the presiding officer and his receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by section 248 of chapter 560 of the acts of 1907.

The ballot box furnished by the commonwealth for use at elections was publicly opened by the moderator and shown to be empty. The box was then locked and the key delivered to John W. Crisp, the officer in attendance.

The polls were opened at forty-eight minutes past five in the forenoon and were kept open until six o'clock in the afternoon, when, as the meeting had previously voted, they were closed.

Adjourned Annual Town Meeting

March 17, 1913

Pursuant to adjournment, the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, met in the town hall, in said town, on Monday, March 17, A. D. 1913, at thirty minutes past seven o'clock in the afternoon, William G. Moseley, moderator, in the chair.

Article 1. Voted that the committee appointed by the moderator under article sixteen, March 4, 1912, to consider the subject of providing public play grounds, be continued, and report at the next annual town meeting.

Voted that the school committee and the chairman of the finance committee, together with three citizens to be appointed by the moderator, be a committee to consider the needs of the Kimball school, secure plans and estimates for the erection of a suitable building on May street and report to the January 1914 town meeting with their recommendations. The moderator appointed Henry A. T. Dow, James H. Whetton and R. Bertram Hill.

Under this article the finance committee submitted a

complete report on every article requiring an appropriation with their recommendations on the same, a copy of which is on file in the office of the town clerk.

The committee on tenement house by-laws submitted a report in three parts:—part A, general building laws applicable to all classes of buildings; part B, building laws applicable to tenement houses only; part C, enforcement of general and tenement house building laws, containing 47 sections and 585 lines. Voted to amend section 7 in line 73 by striking out the word five and inserting in the place thereof the word ten. Voted that the building regulations as amended be adopted.

Article 3. Under this article Joseph Willett and Bertha E. Coburn were elected public weighers.

Article 4. Voted that the money received from dog licenses be appropriated for the use of the public library.

Article 5. Voted unanimously that the town treasurer with the approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the taxes for the municipal year beginning March 3, 1913, to an amount not exceeding in the aggregate one hundred thirty-seven thousand, five hundred dollars and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the taxes of said municipal year.

Voted unanimously that the town treasurer, with the approval of the selectmen, be and hereby is authorized to renew the note or notes of the town issued in anticipation of the taxes of the year 1913, provided the due date of such renewal or renewals shall be within one year from the date of the original note or notes so issued.

Article 6. The following appropriations were voted under this article, each item being voted on separately, viz :

For highways, townways and bridges, fourteen thousand three hundred dollars ($14,300), together with the money received from street railway tax.

For street lighting sixty-seven hundred dollars ($6700).

For salaries of town officers, and clerks of the several boards, twenty-five hundred dollars ($2500).

For the relief and support of the poor, twenty-two hundred dollars ($2200).

For police service, three thousand dollars ($3000).

For incidentals, fourteen hundred dollars ($1400).

For sidewalks, twenty-eight hundred and fifty dollars ($2850) and that fifteen hundred dollars from this appropriation be expended on new construction.

For care of town hall and grounds, nine hundred and seventy-five dollars ($975).

For state aid, seven hundred and fifty dollars ($750).

For fire alarm maintenance, eight hundred dollars ($800).

For printing and stationery, one thousand dollars ($1000).

For soldiers' relief, six hundred dollars ($600).

For memorial day, three hundred dollars ($300).

For bonds of town officers, two hundred dollars ($200).

For salaries of fire department engineers, three hundred dollars ($300), the chief to be paid one hundred dollars and each of the assistant engineers fifty dollars each, the latter to receive pay for fire service.

For medical examination in schools, two hundred dollars ($200).

For fire department maintenance, forty-four hundred dollars ($4400).

For board of health, three hundred dollars ($300).

Article 7. Voted, that all poll and personal property taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December.

(The above paragraph shall be printed on the tax bills).

The collector of taxes shall have the same power which the treasurer would have when acting as collector.

If, in the judgment of the collector, in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said

taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1914.

The compensation of the tax collector shall be eight hundred dollars, for the collection of the full amount of the warrant submitted to him by the board of assessors. The compensation to be paid pro-rata upon the collection of each fourth part of the full amount of the warrant, the last fourth part to be paid when the entire tax warrant is collected.

Article 8. Voted that the salaries of town officers be the same as in 1912 except that the selectmen's clerk be paid one hundred and fifty dollars and that the assessors be paid as provided by state law.

Article 10. Voted unanimously that the town issue its Water Loan Bonds to the amount of twenty thousand dollars, to be dated the first day of September 1913, to bear interest at the rate of four per centum per annum, interest payable semi-annually on the first day of March and September in each year: said bonds to be of the denomination or one thousand dollars, to mature and be payable one thousand dollars each in the years 1914 to 1933 inclusive, said bonds to be executed and issued under and according to the provisions of chapter 107 of the acts of 1888 and all subsequent acts relating thereto.

Article 11. Voted unanimously that the town treasurer be and hereby is authorized, with the approval of a majority of the water commissioners, to borrow on temporary loan such sums of money as may be necessary, not exceeding twenty thousand dollars, in anticipation of issuing its Water Loan Bonds: said debt or debts incurred

under this vote to be paid from the proceeds of the issue of said water loan bonds.

Article 12. Dismissed.

Record of State Primary

April 1, 1913

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town on Tuesday, the first day of April in the year one thousand nine hundred and thirteen, at four o'clock in the afternoon, for the purpose of nominating candidates of political parties for the office of Representative in Congress for the thirteenth district. The meeting was called to order by Austin Potter, chairman of the board of selectmen. The warrant and officer's return was read by the town clerk.

The selectmen having appointed William A. Parks, James A. Fitzgerald, William A. Murphy and Ellis S. Tisdale as ballot clerks, they were severally sworn by the town clerk.

The package of ballots received from the secretary of the commonwealth, containing 950 ballots marked Republican, 700 ballots marked Democratic and 600 ballots marked Progressive, were delivered to the presiding officer and his receipt taken therefor.

Cards of instruction and specimen ballots were posted

as required by law. The ballot box was publicly opened and shown to be empty, then locked and the key given to George Twigg, the officer in attendance at the polls.

The polls were open for the reception of ballots at five minutes past four o'clock in the afternoon and were kept open until eight o'clock in the evening.

As the ballots were taken from the box they were audibly counted by the presiding officer and announced as seventy, which agreed with the number of names checked by the ballot clerks. Eight ballots marked Democratic, ten ballots marked Progressive, forty-eight ballots marked Republican, were duly sorted and counted separately and public announcement thereof was made in open meeting and was as follows, viz: —

DEMOCRATIC

John J. Mitchell of Marlborough	8

PROGRESSIVE

Norman H. White of Brookline	10

REPUBLICAN

Alfred L. Cutting of Weston	44
James Henry Gleason of Marlborough	4
Norman H. White of Brookline	4

The business of the meeting being completed, all the ballots cast were sealed up and endorsed by the election officers and placed in the custody of the town clerk.

The returns of votes were signed by the town clerk and sealed up in open town meeting. At twenty minutes past eight o'clock, voted that the meeting be dissolved.

Dissolved.

Town Meeting

SEPTEMBER 23, 1913.

Pursuant to a warrant calling a town meeting for Tuesday, September 23 next, at eight o'clock in the afternoon, the inhabitants of the town of Needham met in the Town Hall in said town at the appointed time.

The meeting was called to order by the moderator.

The warrant and officer's return was read by the town clerk.

The question was raised as to the legality of the warrant calling said meeting.

Voted that this meeting be dissolved.

Dissolved.

Attest:

THOMAS SUTTON,

Town Clerk.

Citizens' Meeting

SEPTEMBER 23, 1913

Immediately upon the dissolution of the town meeting, the assembly organized as a citizens' meeting and elected William G. Moseley as chairman.

It was voted to discuss article five of the warrant, relative to the "use of the car barn on Highland avenue as a Motion Picture Theatre."

After discussion lasting nearly two hours, in which many of the prominent citizens took part, the following resolution was passed by a very large majority.

Resolved, that the town is opposed to the use of the old "car barn" on the west side of Highland avenue, as a Motion Picture Theatre or for any other forms of public entertainment.

The meeting then dissolved.

THOMAS SUTTON,

Town Clerk.

Warrant for Town Meeting

October 2, 1913

COMMONWEALTH OF MASSACHUSETTS

Norfolk, ss.

To George Twigg, a constable of the town of Needham,
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, to meet at the town hall in said town, on Thursday, the second day of October next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz:

Article 1. To see if the town will vote to issue additional water loan bonds under and according to the provisions of Chapter 107 of the Acts of 1888, Chapter 514 of the Acts of 1913 and all intervening acts relating thereto.

Article 2. To see if the town will vote to increase the rate of interest to four and one-half per centum per annum on the twenty thousand dollars ($20,000) water loan bonds authorized under article 10 at the annual meeting held March 3, 1913.

Article 3. To see what action the town will take in regard to borrowing money in anticipation of issuing its water loan bonds.

Article 4. To see if the town will vote to sell the lot of land owned by the town on Central avenue, containing one half acre more or less, adjoining the property of Naomi Olson and pass any vote or votes relative thereto.

Article 5. To see if the town will authorize the school committee to conduct municipal moving pictures or pass any vote or votes relative thereto, on petition of J. Adams Puffer and others.

Article 6. To see if the town will vote to accept the widening and alteration of High Rock street as laid out by the selectmen.

Article 7. To see if the town will authorize the selectmen to enter into an agreement with the N. Y. N. H. & H. R. R. Co. for the construction by the railroad of a bridge across the railroad's location on High Rock street, and the construction of the approaches thereto by the town.

Article 8. To see what sums of money the town will appropriate for the construction, maintenance and repairs of highways, townways, sidewalks and bridges.

For the maintenance of the fire alarm.

For salaries of the engineers of fire department.

For relief and support of the poor.

For soldiers' relief.

For the police department.

For the care of the town hall and grounds.

For printing and stationery and for other incidental and current expenses.

Article 9. To see what action the town will take relative to the purchase of land for the use of the highway department or pass any vote or votes relative thereto.

Article 10. To see if the town will vote to authorize the treasurer, with the approval of the selectmen to borrow such sums of money as may be necessary to carry out the votes under this warrant or pass any vote or votes relative thereto.

Article 11. To see if the town will vote to acquire the low land between Chestnut street and Marked Tree Road for park purposes, or take any action thereon.

And you are hereby directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town, at least seven days before the time of said meeting.

Hereof fail not and make due return of this warrant, with your doings thereon, unto our town clerk on or before said day and hour.

Given under our hands at Needham aforesaid, this twenty-third day of September, A.D. 1913.

AUSTIN POTTER,
[SEAL] JAMES M. McCRACKEN,
JOHN F. GILFOIL,
Selectmen of Needham.

Officer's Return

NORFOLK, SS.

NEEDHAM, September 24, 1913.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, seven days before the time of holding said meeting.

GEORGE TWIGG,
Constable of Needham.

A true copy of warrant and officer's warrant.

Attest:

THOMAS SUTTON,
Town Clerk.

Record of Town Meeting

October 2, A. D. 1913

Pursuant to the foregoing warrant a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall in said town, on Thursday, the second day of October, in the year one thousand nine hundred and thirteen, at eight o'clock in the afternoon.

The meeting was called to order by the moderator.

Voted to omit reading the articles in the warrant.

The town clerk read the warrant and the return of the officer who notified and warned the inhabitants.

Article 1. Voted unanimously that the town issue its Water Loan Bonds to the amount of twenty thousand dollars, to be dated the first day of September, 1913, to bear interest at the rate of four and one-half per centum per annum, interest payable semi-annually on the first day of March and September in each year; said bonds to be of the denomination of one thousand dollars, to mature and be payable:

One thousand dollars each in the years 1914 to 1933 inclusive. Said bonds to be executed and issued under and according to the provisions of Chapter 107 of the Acts of 1888 and all subsequent Acts relating thereto.

Article 2. Voted unanimously that the words four and one-half be substituted for the word four in the vote passed under Article 10 at the annual meeting held March 3 and 17, 1913,

So, that the vote shall read:

Voted unanimously that the town issue its Water Loan Bonds to the amount of twenty thousand dollars, to be dated the first day of September, 1913, to bear interest at the rate of four and one-half per centum per annum, interest payable semi-annually on the first day of March and September in each year; said bonds to be of the denomination of one thousand dollars, to mature and be payable one thousand dollars each in the years 1914 to 1933, inclusive, said bonds to be executed and issued under and according to the provisions of Chapter 107 of the Acts of 1888 and all subsequent Acts relating thereto.

Article 3. Voted unanimously that the town treasurer be and hereby is authorized, with the approval of the Selectmen, to borrow on temporary loan such sums of money as may be necessary, not exceeding twenty thousand dollars, in anticipation of issuing its water loan bonds; said debt or debts incurred under this vote to be paid from the proceeds of the issue of said water loan bonds.

Article 4. Voted that the Selectmen be authorized to sell the lot of land on Central avenue, adjoining the property of Naomi Olson, containing one half acre more or less, at public auction for not less than one hundred dollars, and that the town treasurer be and hereby is authorized to sign, seal, execute and deliver a deed, conveying said property upon payment of the above stated sum.

Article 5. Voted that action on this article be indefinitely postponed.

Article 6. Voted to grant the privilege of the floor to Hon. George Fred Williams of Dedham.

Voted that action on this article be deferred until the town receive a definite proposition from the property owners in this section.

Article 7. Voted that the Selectmen be authorized to enter into an agreement with the N. Y., N. H. & H. R. R. Co. for the construction by the railroad, of a bridge across the railroad location on High Rock street, and the construction of the approaches thereto by the town.

Article 8. The following appropriations were made under this article, each item being voted on separately, viz:

For the construction, maintenance and repairs of highways, townways, sidewalks and bridges, five thousand one hundred dollars ($5,100).

For the maintainance of the fire alarm system three hundred dollars ($300).

For salaries of engineers of the fire department fifty dollars ($50).

For the relief and support of the poor, two thousand dollars ($2,000).

For soldiers relief, three hundred dollars ($300).

For the police department, three hundred dollars ($300).

For the care of the town hall and grounds, three hundred and fifty dollars ($350).

For printing and stationery, fifteen hundred dollars ($1500).

For incidentals, fifteen hundred dollars ($1,500).

Article 9. Voted that three hundred and fifty dollars ($350) be appropriated for land on Howland street owned by Thomas Sutton for use of the highway department as recommended by the Selectmen.

Article 10. Voted unanimously that the town treasurer be and hereby is authorized with the approval of the Selectmen to borrow for general municipal purposes an

amount not exceeding eleven thousand, seven hundred and fifty dollars, giving the note or notes of the town therefor, payable in accordance with Section 14, Chapter 719, of the Acts of 1913.

Article 11. Voted that a committee of seven including the park commissioners, be appointed to consider the advisability of securing land for park purposes.

The moderator appointed William H. Carter, Fred L. Greeley, John F. Gilfoil and Wallace G. Roe.

The committee to report at the March meeting 1914.

At 10.40 p. m., voted that this meeting be dissolved.

Dissolved.

Attest: THOMAS SUTTON,

Town Clerk.

Warrant for State Election

NOVEMBER 4. 1913

COMMONWEALTH OF MASSACHUSETTS

NORFOLK, SS.

To John W. Crisp, a Constable of the town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, to meet at the town hall in said town, on Tuesday, the fourth day of November next, at five forty-five in the forenoon, then and there to give in their votes for the following State and County officers, viz:

Governor, lieutenant-governor, secretary, treasurer, auditor, attorney general, councilor, senator, representative in the general court, county commissioner, two associate commissioners, district attorney, register of probate and insolvency, and to vote on the following questions, to wit:

Amendment to the constitution making women eligible to appointment as notaries public. (Chap. 28, Resolves of 1913.)

Amendment to the Constitution authorizing the Referendum. (Chap. 116, Resolves of 1913.)

Acceptance of Chap. 807, Acts of 1913, entitled "An act to provide for compensating certain public employees for injuries sustained in the course of their employment."

The polls may close at four o'clock in the afternoon.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places, in said town, at least seven days before the time of said meeting, and also to leave a copy at each of the several dwelling houses within the town.

Hereof fail not, and make due return of this warrant with your doings thereon, unto ourselves, on or before said day and hour.

Given under our hands at Needham aforesaid this twenty-second day of October, A. D., nineteen hundred and thirteen.

AUSTIN POTTER,
JAMES M. McCRACKEN,
[SEAL] JOHN F. GILFOIL,
Selectmen of Needham.

Officer's Return

NORFOLK, ss.

NEEDHAM, October 27, 1913.

By virtue of this warrant I have this day notified and warned the inhabitants of the town of Needham, to meet as within directed, by posting true and attested copies of this warrant in twenty public places in said town, more than seven days before the time of holding said meeting.

JOHN W. CRISP,
Constable of Needham.

A true copy of warrant and officer's return.

THOMAS SUTTON,
Town Clerk.

Record of State Election

November 4, 1913.

In pursuance of the foregoing warrant the inhabitants of the town of Needham, qualified to vote in state elections, met in the town hall on Tuesday, the fourth day of November, in the year one thousand nine hundred and thirteen, at five forty-five o'clock in the forenoon, and were called to order by Austin Potter, chairman of the board of selectmen.

Voted to omit reading the warrant.

Officer's return was read by the town clerk.

The selectmen having appointed William F. Brown, Wallace G. Rae, John Walker, Clair Heald, Edward B. Webster, and Fred L. Fanning as ballot clerks, they were severally sworn by the town clerk.

The package containing the ballots received from the secretary of the Commonwealth, was then delivered to the presiding officer and his receipt taken therefor.

Cards of instruction and specimen ballots were posted as required by law.

The ballot box was publicly opened and shown to be empty, then locked and the key given to John W. Crisp, officer in attendance at the polls.

The polls were opened for the reception of ballots at forty-nine minutes past five in the forenoon and were kept open until eight o'clock in the afternoon, when as had been previously voted they were closed.

Tellers were appointed by the selectmen and sworn by the town clerk, as follows: — Henry Godfrey, Jr., William Brown, Clyde E. Cookson, William S. Cassidy, Daniel L. Falvey, and Timothy F. Allman.

At the opening of the polls the ballot box register stood at 000.

At the close of the polls the ballot box register stood at 999. As the ballots were taken from the box they were audibly counted by the presiding election officer and announced as nine hundred and ninety-seven, which agreed with the number of names checked on the list kept by the ballot clerks.

A canvas of all the votes given in was made by the election officers, as required by Section 301, Chapter 835 of the Acts of 1913, the blank forms furnished by the secretary of the Commonwealth being used.

Upon completion of the canvass of all votes cast, the whole number being duly sorted, counted and recorded, public announcement thereof was made by the town clerk, in open meeting, and was as follows, viz: —

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows :

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child * * * * shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent * * * * who neglects so to do for ten days after the time limited therefor, * * * * shall forfeit not more than five dollars for each offence.

Attention of physicians and midwives is called to Chapter 280, Sec. 1, Acts of 1912.

Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they were in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a notice statng the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offence.

In accordance with the provisions of the law, the town clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Report of the Superintendent

To the School Committee of Needham:—

I beg leave to submit to you my third annual report of the public schools.

In the statistics I have endeavored to show this year what has become of each and every child that enters the system. I have shown how many of our children are under age, of normal age, and of over age and, as far as possible, given the cause for the children being over age in their grades. I have shown the reasons for non-promotion and for children leaving school. In short, the statistics this year will place our school accounting on approved business lines and enable us to draw a trial balance and find our gains and losses. There is no reason why the educational plant should not be run in as efficient, economical, and exact basis as any manufacturing plant. We ought in school administration to get excellent results and we ought to show them in definite statements. The people of this town pay over $40,000 annually for the education of their children and they are entitled to dividends from their investment. What are these dividends? Their children possessing a greater fund of knowledge, a greater ability to reason, more concentrated power, more dexterity of mind or hand, and a broader and nobler character.

How shall we strike the balance sheet and make our school accounting show these results? We cannot show on paper the evidence of all these characteristics of good school work. Possibly, the strong and noble character can only be measured by the future adult life of the child; however, there are index fingers of character in the formative age that point to what the child will be in mature years. If he is kind to his playmates as well as his superiors, if he is helpful at home, if he is cheerful, unselfish, and truthful; all these are pointers to a future good character and can be measured by observation. The fund of knowledge, the strength of reasoning power, and the skill and dexterity of hand and mind can all be measured by examination and by the results of school work. For illustration, we can place in our trial balance in the column of gain the fact that during last school year 111 pupils out of a total of 1,139 secured the Palmer diploma for professional penmanship, a proportion of 1 to 10. The following facts should also be placed in the gain column for last school year: 210 of our pupils secured the certificate for proficiency in spelling and 268 the certificate of proficiency in arithmetic; the average rank in the arithmetic examinations has been raised from 32% to 71% the percent of attendance has been raised in one year from 93.39 to 94.67, over one percent; the number of cases of tardiness have been reduced from 3,187 to 1,410, a decrease of 1,777; the roll of honor for pupils not absent nor tardy for three successive years is 22, 45, and 75 pupils respectively, a gratifying gain for each year. All these are distinct profits to our school system.

The number of children in our schools in September, 1912, were 1,056, in September, 1913, there were 1,167, a gain of 111 pupils in one year. The gains and losses by grades are distributed as follows:

	I	II	III	IV	V	VI	VII	VIII	IX	X	XI	XII	XIII	XIV
Gains	39	9	28		28		7	2		5	1	5	10	
Losses				14		2			5					2

The gains and losses by schools are as follows:

	Gain	Loss
High	19	
Avery	14	
Dwight	13	
Harris	5	
Kimball	60	
Parker	1	
Eliot and Riverside		1
Total	112	1

Net gain 111.

The biggest gain has been in the Kimball school, but nearly all the districts except the Eliot have made good gains proportional to their numbers.

The large gain in the Kimball school will necessitate the employment of two more teachers the next school year, one for a combined 3d and 4th grade school and another for the overcrowded grammar grades. We expect the new primary building in the Kimball district to be completed by next September. Seven rooms of this building could be opened at that time, a room for each one of the first five grades, a room for a first and second grade combined, and a room for a third and fourth grade combined. If the Kimball school could thus be relieved, the partitions could be taken out on the first and second floors and thus make six well lighted, well ventilated, and commodious rooms. These rooms would house the 6th, 7th, 8th, and 9th grades, and the mixed grades and still leave one spare room for future growth. The portable school could then be moved to the Riverside district, a lot could be secured fr it, and it could become a permanent school for the lower grades in that district.

In table IV is given the distribution of the children in our schools for the school year 1912-13. The total membership was 1,167; 26 of these moved from one school to another in town and are duplicates in membership; hence, the number of different pupils in school for the year are 1,167 less 28 or 1,139 pupils. These pupils were distributed during and at the end of the year as follows: During the year five pupils went to school in another town, 84 moved to another town, 25 went to work, 4 left school to loaf, 15 on account of sickness, 2 because they were not 5 years old, and 1 on account of vaccination. At the end of the year 13 received double promotion, 921 single promotion, and 69 were not promoted. The number not promoted were 7% of the total number in school at the end of the school year.

The reasons for non-promotion are set forth in table V. The summary is that 5 were not promoted on account of their immaturity, 23 for slowness, 16 for lack of ability, 9 for lack of knowledge of the English language, 4 for lack of study, 5 for laziness, 1 for lack of interest, 1 for absence, 3 for sickness, 1 for change of school, and 1 for lack of home co-operation, making a total of 69. The number can be reduced by eliminating lack of study, laziness, lack of interest, and lack of home co-operation; the other reasons are legitimate for non-promotion. As time goes on and the advancement of each pupil is carefully considered, the number of non-promotions should be reduced to 5%.

In table VI there is shown a record of pupils that have left school during the last school year, but are still living in town, and the reasons for leaving school. The summary of this table shows that 2 left school because they were under 5 years of age, 3 because of no interest in school, 15 because they wanted to go to work, 4 because they were poor scholars, 16 on account of sickness, and 7 for laziness, making a total of 47. This number should

be reduced by eliminating no interest in school, laziness, and some of the desire to go to work. Not over 3% of the children should be lost to the school system for all of the above reasons. Eighty-four of our pupils have moved to other towns during last school year and 5 children whose parents live in town attended school in another town.

By request of the Bureau of Immigration an investigation has been made of the birth place of the children enrolled in the schools for the school year 1912-13 and the birth place of the fathers of these children. This record is made on the total enrollment 1,073 and not on the total membership of 1,167, since the record is for the state. The summary of the birth places of the children is 974 born in the United States, 20 in Canada, 30 in Great Britain, 1 in Ireland, 19 in Italy, 9 in Russia, 8 in Turkey, and 12 in all other countries or else unknown. The summary of the nationality of the fathers of the children is 504 American, 8 Armenian, 1 Bavarian, 178 British, 97 Canadian, 13 French, 28 German, 110 Irish, 50 Italian, 21 Jews, 14 Lithuanian, 11 Polish, 4 Scandanavian, 5 Syrian, 5 Russian, and 24 other nationalities or unknown.

Table IX shows the number of children by grades in our school system at each successive year of age from 5 years to 20 years during the month of September, 1913. No child is allowed to enter our schools under 5 years of age and none are allowed to enter the first grade later than September 30 in the school year, unless he has been in some other school or is over 7 years old. Under this rule many children cannot enter our first grade much before they are 6 years old and some parents prefer that their children enter after they are 6 years old. Therefore, the normal age for the first grade to enter school is 5 to 7 years. The normal age for the second grade is 6 to 8 years, for the third grade 7 to 9 years and so on. In the table the number of pupils of normal age for each grade is

between the heavy lines. To the left of these lines is the number of under age pupils for each grade, and to the right of the lines is the number of over age pupils for each grade. This record is made up from the membership of the schools for the month of September, 1913. The totals at the bottom of the sheet give the number of pupils at each successive age and the total number of under age, normal age, and over age pupils. At the right of the sheet the totals of under age, normal age, and over age children are given by grades. The total number who are under age is 40, of normal age is 913, and of over age is 214. The number of over age children is too large.

In table X is given a record by schools of the over age children and the reasons therefor. The summary of reasons is as follows: Immaturity 4 children, home conditions 1, slowness 2, stubbornness 1, sickness 51, lack of ability 60, lack of interest 7, absence 7, change of residence 24, foreigners but few years in this country 42, entered school after the 7th birthday 12, absence on account of going to work 3. The statements of this table are made up by the teachers from inquiry and from their knowledge of the pupils and, while there are some errors due to human judgment, in the main there is little doubt that the diagnosis is correct. There are a number of reasons that are legitimate for the over age conditions, such as, immaturity, home conditions, slowness, sickness, foreigners but few years in the country, and entered school after the 7th birthday. The children of foreign parentage who have been in this country but a few years hear the English language only at school and on the street and, even though they may have made a good beginning in education in their native country, the new system of education and the ignorance of our language delays their advancement and makes them over age pupils. In addition, a number of them have had but little education when they arrive in this country

and consequently have to enter a grade in our schools that places them in the over age group.

There are other reasons given for over age among our pupils that do not seem to be necessary or excusable, such as; stubborness, lack of interest, absence for any other reason than sickness, lack of ability, and change of residence. The number of over age children due to these reasons are 102, nearly one-half of the total number. Such reasons as stubbornness, lack of interest, and absence for other cause than sickness should be removed by the teacher through co-operation with the home. If the home will not co-operate with the school in securing the regular attendance of the child, the law and the attendance officer can remove this difficulty. At first thought lack of ability seems to be a legitimate reason for over age. With careful consideration it may be seen that, if a child lacks ability in one study or in his whole course, he should not be held back from year to year, until he has become a number of years over age and is ashamed of his size when compared with his classmates; he should be promoted from grade to grade with his class, learning what his ability permits and associating with pupils of his own age. In my opinion the two reasons, slowness and lack of ability, are confused in the minds of the teachers. The teachers gave under slowness only 2 children and under lack of ability 60. It is quite probable that a number of these 60 were slow of development or slow in the action of the minds and that some of them were due to lack of interest in school and lack of study. The number due to change of residence should be made very small. The work should be adapted to the needs of a new pupil so that he may not lose a grade by change of residence. This has already been done in the high school; the course in the grades should be made flexible so as to meet the varying equipment of new pupils. The number of over age children can be reduced one-half by the elimination of un-

necessary reasons. The teachers from year to year will make a more careful diagnosis of over age children and endeavor to reduce their number.

In table XI is given a record of pupils that are under age and the reasons therefor. The three main reasons are double promotion, entering school under 5 years of age, and a gain of grade by change of residence. Pupils cannot enter school in the majority of systems until they are 5 years old, so that this reason in a short time will in the main disappear. Double promotions should increase. As our schools become better graded, there should be a greater opportunity for the quick, intelligent pupil to advance faster than his grade. When there are the same number of grades in the elementary schools of all towns and cities and when there is a more uniform course of study throughout the state, change of residence will not affect the grade or the standing of the child.

In table VII is shown a record of pupils that have left school during the summer vacation and the reasons for leaving school. The total number is 70, divided as follows: 27 left town, 25 went to work, 2 work at home, 9 went to school in another town, 4 went to advanced technical schools, and 3 went to colleges. This table includes all the children that have left our schools from the first grade through the graduating class in the high school. The interesting facts to be noted are that the heaviest losses are in the graduating classes of the high school and grammar schools and in the 5th, 6th and 7th grades where the children become 14 years old and go to work. The graduating class in the high school last June numbered 14. Of these 2 returned to high school to fit for college, 3 went to college, 4 to technical schools, and 5 went to work. Of the 5 that went to work 3 are from the commercial department and are working in offices, and one is earning money to enter college another year. It is a good record for a class of 14 that 10 of them are mov-

ing on to more advanced education. In the graduating class from the grammar schools there were 72 pupils; 56 of these entered our high school, 2 moved out of town and attend high school in the towns where they live, 3 live in town and attend the high schools in Newton and Brookline in order to get technical and manual training, 2 work at home, and 9 have gone to work in the mills. Sixty-one out of the 72 in the class are continuing their education in secondary schools, a good record for the class. The number that leave school to go to work should be reduced; it should be less than 14%. We lost out of this class several good scholars that should have gone to high school and then to more advanced schools or colleges. These children admitted that they liked school, but were induced by the desire to earn money, the love of good clothes, and the good time which money seems to them to buy, to leave school for good; even though their parents and their friends tell them that in ten years they will regret that they did not continue their education. In the 5th to the 7th grades inclusive, where the most of the children become 14 years old, the loss during the summer was 14 pupils; 10 of these left town and only 2 went to work. In fact in the nine elementary grades only 4 went to work in the summer, not any in the Kimball school, 2 in the Avery, 1 in the Eliot, and 1 in the Harris.

In table VIII is shown a record of pupils from the promotion in June to September 30, 1913. This table shows the number by grades not promoted, the number receiving single promotion, the number receiving double promotion, the number not promoted in June, but advanced a grade by study during the summer, the number due in the schools on September 2d, the number of new pupils entering our school system in the month of September, and the total membership for September. The interesting facts of the table are that 156 pupils have entered the first grade, 234 pupils in all the grades, and that the total

membership for September, 1913, is 1,167, the same as the total membership for the whole of last school year.

In table XII is shown the gain to our school system by new pupils since September and the losses by removal, sickness, and other reasons. The footings of the table give the membership of the school system at the end of the fall term.

Corporal punishment has not been eliminated from our schools as yet. During the school year 1911-12 there were 109 cases of corporal punishment; during the school year 1912-13 there were 87 cases, a decrease of 20%. There should be as large a decrease each year, until this sort of punishment is banished from our schools except in very bad cases of misconduct. A record of every case of corporal punishment is kept, giving name of school, of grade, and of pupil, the cause of the punishment and the severity.

No teachers were lost to our school system during the last school year. This was due to their contract and to the fact that the teachers feel that they will be paid according to merit and in proportion to the salaries of teachers in the better class of towns. The permanency of the teaching force has added much to the efficiency of the system. At the end of the school year we lost 4 teachers; two of these by marriage. The public schools cannot compete succesfully with Cupid. We must expect a small loss to our teaching force each year on this account. However, if this loss comes at the end of the year, the injury to our school system will be small.

At the opening of this school year we had six new teachers, four to replace the loss and two for new positions. Their names and positions are as follows:

Ruth E. Holland, Kimball school, Grade IV.
Laura E. Stoughton, Kimball school, Grade I.
Etta G. McDonald, Avery school, Grade IV.

Katharine Dempsey, Eliot school, Grades I-II.

Marie L. Wieczorek, Riverside school, Grades I-II.

M. Leslie Weatherston, High school, English and commercial arithmetic.

The teachers recently employed and those that have been in service a number of years are carrying on the school work successfully. The problems of each grade are carefully considered and studied at the teachers' meetings held once a month. The needs of the individual child are considered and plans are constantly made to give the slow and backward child a better chance of advancement. There is no idea of neglecting the bright pupil; he should have proper attention and be given an opportunity to advance as rapidly as he can. On the other hand the teachers feel that the emphasis of effort should be given to the backward child, that his home should be visited and the close co-operation of the parents should be secured, that every method and device found efficacious to arouse and inspire the child should be employed. As already mentioned in the discussion of statistics, it is our purpose to reduce to a minimum non-promotions, retardation, and withdrawals from school for insufficient reasons.

The work in music and drawing is advancing in efficiency. As instructor in music we now have Miss Bartlett's full time and a new impetus is given to the study. We expect greater proficiency from individuals in the future; they will be able to stand alone or in small groups and sing and not depend upon one another so much; they will know more of the theory and practice of music and will have greater confidence. In drawing the work is progressing every year. Miss Bean carefully studies and prepares her work so as to secure better results and more economy of time. Nowhere in our school system does the permanency of our teaching force do greater good

than in music and drawing. We have two able teachers in these subjects and the town is fortunate to keep them.

In September by the resignation of Mrs. Redington Fiske from the school committee the committee lost a faithful and conscientious colleague, the superintendent and teachers an interested and an efficient helper in school duties, and the children a thoughtful and kindhearted friend. We sincerely hope that Mrs. Fiske's health will soon be restored and that we may often see her in our schools.

The Parent-Teacher Association organized last year has been a force for good in our schools. The meetings have been well attended and matters of great importance to our schools have been discussed. Perhaps the greatest good that has come from this association is that teachers and parents have met on a social basis, that they have talked over school matters, and that they come to know that each is eager for the advancement of the children and that they are ready to work together for their best and truest education.

The course of study is conscientiously studied each year that we may eliminate the non-essentials, that we may concentrate upon the vital matters, and that we may teach most thoroughly that which should become the life possession of the child. The superintendent has prepared a series of arithmetics covering the entire field for the elementary grades in this subject. The committee have already published this year two parts of this series. If possible, the remaining three parts should be published next year so that the work in this subject may be uniform and systematic and that the standard of recitation and examination may thus be raised to 85%. There is some additional expense on account of the publishing of these books, but this will be offset by the fact that the book problem in arithmetic will be settled for ten years and that we will secure stronger results in this subject. The

course of study for the elementary grades published a little over a year ago is saving us considerable expense by taking the place of the English books which were formerly in the hands of the pupils.

The work in Palmer penmanship has been more closely graded this year and each grade will hold to its province laying a more stable foundation for rapid legible penmanship with good arm movement. In all probability under this system not so many Palmer diplomas will be won this year as last year, but a more thorough knowledge of the correct movement and the basic forms will be acquired and at the end of the course there will be greater ease and precision.

In the spelling course the superintendent and teachers have carefully considered the words of each grade and eliminated those rarely used, so that the course each year will contain 800-1,000 words which are valuable to the writing vocabulary of the child. We are emphasizing especially the study of the common words frequently misspelled and we expect in a few years to give the children a good command both as to meaning and spelling of a rich vocabulary.

In the other branches of the elementary course, reading, language, geography, history, civics, and algebra our aim is to teach well the course prescribed, eliminating the non-essentials, dwelling upon the important and valuable parts and giving the pupils a usable knowledge in each branch of study.

In the high school there has been a good increase in the number of pupils in comparison with last year's record. This fall term there have been enrolled over 180 pupils in the school and before the year is over the number will reach 190. We expect to arrive at the 200 mark next year. Our present number of teachers will be able to handle the necessary classes for next year and the year after. The high school is also advancing in efficiency.

The pupils are more regular in attendance, they are careful about tardiness, and they prepare their lessons well; in fact, their attitude toward school is right, they are there to study, and they look upon their teachers as their most helpful friends.

The high school lunch has again been tried this fall under the direction of Mr. W. J. Scott. Mr. Scott has supplied the pupils with good and nourishing food at a reasonable price. It is quite an accommodation to our high school children to get their lunches without leaving the building especially in stormy weather and it is to be hoped that sufficient number will pratronize the counter so that Mr. Scott can continue it.

In the basement of the building a shower bath has been placed for the use of the boys after practice in baseball and football. The principal of the high school and the teams have taken great interest in fitting up this room for the bath; the boys themselves have done considerable work upon the lockers.

The high school building will need considerable repairs in a short time. The foundations need attention, the stairs need more support, the plastering in places needs repairs, and the rooms and halls need to be painted and kalsomimed.

In the elementary schools one additional room has been opened this year, the Riverside school at the north end of Highland avenue. The Saco-Lowell Shops kindly gave the school department the use of a hall in the boat house beside the Charles river. This has been fitted up into a pleasant school room for the children. The members of the first and second grades who live in this district and who formerly attended the Eliot school now attend this school and relieve the congested condition of the barge that transported them to the Eliot school and also the overcrowded first and second grades of that school. As soon as the new primary school is built in the Kimball

district. it would be well to move the portable school now in the Kimball yard to this district, purchase a lot in a suitable location, and place the portable upon it. In this building there could be put the lower primary grades of the Riverside district. This arrangement would furnish comfortable housing for the children and prevent any overcrowded rooms in both Eliot and Riverside districts for a number of years.

The Kimball, Old Avery, and the Dwight schools need new floors and a number of rooms need adjustable desks and seats for the children. Some of these desks are very old, scarred with use, and too small in writing surface to meet our present needs. I recommend that two or three rooms each year be equipped with adjustable desks and seats, until we have a modern and suitable equipment in this respect in all of our schools. No extensive repairs were made this year because of lack of funds. Our request for an appropriation of $3,000 for repairs was carefully considered by the committee on finance; they recommended an appropriation for this purpose of $1,000. This reduction was made, as explained by the chairman of the finance committee, because the committee wished to keep the appropriation within bounds so that the rate of taxation would not have to be advanced but little. Some of the desired appropriations had to be reduced; the school department suffered to the extent of $2,000. This neglect of repairs might not be noticeable for one year, but it is not good policy to allow our school plant to run down. About $2,000 is needed each year to make the necessary repairs. In the summer of 1914, if the new primary building on the Green field is to be completed, the Kimball school should receive a thorough renovation; the partitions dividing the first and second floors into smaller rooms should be removed, new floors should be laid, and the walls and ceilings repaired and painted. At this time it would be well for adjustable desks and seats

to be supplied as far as possible. This work would need a special appropriation.

The selectmen have fitted up very comfortable and commodious quarters in the Ingols block for the committee rooms. These rooms will give ample space for the development of the school work, they will give freedom from disturbance by other departments, they will permit conferences with teachers and parents. The superintendent appreciates the thoughtfulness of the selectmen and intends to increase the efficiency of his work, since he has a better chance to work.

The health of the pupils has been in the main good. The customary wave of contagious disease has struck certain schools during the year and has depleted the numbers for a while, but the watchful care of our efficient school physicians has prevented the spread of these diseases. The school physicians should have the assistance of a school nurse when they need one, especially in the high school work. An appropriation of $50 would pay for the necessary service of a nurse. In this connection it should be said that the salary of $100 paid to each of the school physicians per year is too meager for the amount of work they do for the schools. Because of their interest in the children they give much professional service to the schools for which they receive no pay. Their salaries should be increased.

The attendance in our schools has been good for the school year, as has already been shown in the percent of attendance. The truant officer, who is now called the attendance officer, has looked after all difficult cases. The great majority of parents are anxious to have their children attend school all that the weather and the health af the children permit. There are only a few cases where the parents are indifferent.

The new law for work certificates went into effect this fall and now all minors that are working must have some

sort of a certificate. To get a certificate between the ages of 14 and 16 the child must know how to read and write the English language well enough to have completed the fourth grade, he must have attended school 130 days since his thirteenth birthday, he must furnish a certificate of birth, a school record, a promise to employ, and a physician's certificate of health. To get the literate educational certificate between the ages of 16 and 21, one must be able to read and write the English language and furnish a birth certificate; to get the illiterate certificate between the same ages, one must furnish a birth certificate and attend evening school, if there is one in town. Duplicate certificates and all the papers presented in securing these certificates are kept on file at the superintendent's office and a proper index is made of these. Over 200 of these certificates have been issued this fall; it requires from 7 to 10 minutes to issue a certificate and file the papers. Quite a number of children have been compelled to return to school, since they did not have the necessary number of days in their school record. The new law will cause children to remain longer in school and be more careful about their attendance.

No school system has a more conscientious corps of janitors than our system. They take excellent care of the buildings and keep them in good condition. We were very sorry to lose James Galvin from the janitorship of the high school. He was a very kind hearted and accommodating man and was always ready to do everything of value to the school. Our sympathy is extended to himself and family in his long sickness.

It seems expedient to summarize the distinct gains to our school system the last school year and the fall term of 1913; they are as follows: 111 winners of the Palmer diploma last school year, one-ninth of the membership at the end of the year; 210 recipients of the certificate for proficiency in spelling; 268 recipients of the certificate for

proficiency in arithmetic; an increase in rank in the examinations in arithmetic from 32% the previous year to 71% the last school year; an advance in scholarship in all of the subjects of the grades; the raising of the percent of attendance from 93.39 in 1911-12 to 94.67 in 1912-13; the reducing of the number of cases of tardiness from 3,187 to 1,410 in one year, a decrease of 1,777; the increase of the roll of honor for perfect attendance from 22 to 75 in two years, a gain of 53; the increase of September membership from 1,056 last year to 1,167 this year, a gain of 111; the accounting of children from year to year showing the rate of promotion and non-promotion and the number leaving school; a detailed statement of the reasons for non-promotion and for leaving school; a careful consideration of the ages of the children and the reasons for over-age; plans made to prevent non-promotions that are unnecessary and to decrease the number that are over-age; a record made of the nationality of the children and of the fathers; a record made of what has happened to our children since the close of the spring term; the very creditable showing of the last graduating class in the high school, 10 out of 14 in the class moving on to more advanced education; 61 out of the 72 in the graduating class in the grammar schools attending high school either in town or elsewhere; the very small loss in the grades to go to work in the summer; the large entering class in the first grade in September, larger than the total number in any other grade; the number of cases of corporal punishment decreased; the permanency of the teaching force; the study of the individual child and especially the slow and the backward; more self reliance among the pupils in singing; a careful consideration of school problems by the Parent-Teacher Association; the elimination of unnecessary things in the course of study; the publishing of a series of arithmetics giving the exact work of the course; the careful grading of the Palmer

penmanship; the increase in high school membership and the good spirit there towards teachers and the studies; the new primary school at the north end of Highland avenue; and the pleasant and commodious quarters of the school department in the Ingols block;—all these together are distinct and creditable dividends earned by the school department, but the greatest and most important dividend is that over a thousand pupils are being taught to do honest work, to be faithful and persevering, and to make the most of their abilities.

In conclusion, I wish to express my appreciation of all the efforts put forth by school committee, teachers, parents, and children for the betterment of the schools.

Respectfully submitted,

A. H. KEYES,

Superintendent of Schools.

Report of the School Physician

for the

HIGH, THE KIMBALL, THE HARRIS, AND THE PARKER SCHOOLS.

To the School Committee of Needham:—

I herewith submit my annual report as school physician from January 1st to July 1st, 1913. This report unlike all previous reports gives only the work for the first six months of the year, all physical examinations being made in September and October of each year.

The general health of the pupils has been good and the schools in good hygienic condition. During the early part of the winter a mild epidemic of chicken pox occurred in the Kimball school and a comparatively few cases of throat trouble and these not serious, and several cases of pediculosis. This latter condition should not be tolerated in any family and can be very easily cured, if the advice of a family or school physician is faithfully followed.

The following table will give a report of the work from January 1st to July 1st, 1913:

Number of visits to High school 39
Number of visits to Kimball school 42

Number of visits to Harris school	20
Number of visits to Parker school	17
Number of office examinations	32
Number of vaccinations	6
Number of cases of pediculosis	16
Number of cases of varicella	20

I take this opportunity to thank the superintendent of schools, teachers and pupils in the several schools, and also the district nurse for their assistance and hearty co-operation and courteous attention.

Respectfully submitted,

ALBERT M. MILLER, M. D.

Report of the School Physician

for the

AVERY, THE ELIOT, AND THE DWIGHT SCHOOLS.

To the School Committee of Needham:—

I herewith submit my report as school physician of the Avery, the Eliot, and the Dwight schools. The following table gives a report of my work for the term beginning January 1st and ending June 20, 1913:

Number of visits	70
Number of physical examinations	8
Number of office examinations	30
Defective sight	21
Defective hearing	8
Defective teeth	229
Hypertrophied tonsils	66
Adenoids	66
Number of cases of tonsilitis	1
Number of cases of mumps	1
Number of cases of malaria	14
Number of cases of influenza	8

Number of cases of skin disease 1
Number of cases of cardiac disease 5
Number of cases of pediculosis 25
Number of cases of injuries 1

My physical examinations were made before January 1st so that they do not appear in this list except where pupils entered after January 1st.

Respectfully submitted,

WILLIAM MITCHELL, M. D.

CLASS SONG

Tune — "Drink to me only with thine eyes"

Now classmates as we gather here
  To say our last farewell,
Fond mem'ries linger, memories dear
  Of days we loved so well.
Bright hopes there are of hours to come
  To beckon to the strife,
Then let us all with courage strong
  Go bravely on through life.

Now, at the parting of the ways,
  When life before us lies:
Fair visions of those fleeting days
  In recollection rise.
Now we resolve with purpose new
  Our duties ne'er to shirk,
So may we to our pledge be true
  And conquer all by work.

Report of School Committee

To the Citizens of Needham:

The usual statistical report of the public schools of Needham, together with the report of the Superintendent is herewith submitted.

The work of the schools the past year has, on the whole been satisfactory. Nothing has called for unfavorable comment and the committee feel the schools all show decided improvement. The aim of the committee is to secure advancement all along the line. A strengthening in all branches rather than the spectacular in some one department. A feeling of confidence in the management and direction of the work by all the parents rather than disappointment that in some one study the child has failed to make a record. It is one of the hard facts in life to realize and admit our limitations. All cannot shine as reord winners, and nothing should be allowed to emphasize this fact or cause unnecessary heart burning because of it. A large amount of the dissatisfaction with the public school system could be eliminated if an effort was made to encourage the ability each scholar possesses rather than to call attention to the defect. The better way in education as in all other affairs of life is to encourage rather than discourage. Many a child has lost interest in school because his slowness in some one subject has

been made unduly prominent, whereas if merited commendation had been given in another subject it might have resulted in an improvement in every study.

Public schools are maintained for the good of all, and it is highly important that parents do their part toward securing the highest efficiency. It is not enough to contribute the children, every parent should see that the child is given the benefit of good home training, good health, and good spirits. A child obedient in the home will be obedient in the school and thereby help in school work. The benefit to be derived from the Parent and Teachers' Association must be along the line of closer touch with school conditions. Not by unwise or unnecessary criticism, but rather by seeking to establish and maintain an intimate acquaintance with school work. On no other ground can its existence be justified.

The committee have a right to assume that the parents are anxious to secure for their children the best possible in education. And this has been and is the controlling purpose of the committee. There may be differences of opinion as to methods. There is no difference as to purpose.

The committee feel that if the townspeople will enthusiastically support the committee in maintaining good school room conditions, the employment of good teachers, small classes, encouragement in trying to secure a more intimate individual help, instruction and encouragement between teacher and scholar, and a helpful stimulation of ambition in the children, the work of the committee will be rendered easier and more satisfactory.

Unwise and improper criticism of school conditions can only result in harm, and the committee again urge all parents who have any matter pertaining to the schools about which they desire information, to come to the committee and talk it over before making public complaint.

This is giving the committee a fair chance, and they are entitled to fair play.

The town having voted at the January meeting to erect a modern schoolhouse on May street, it is expected that by next September conditions at the Kimball school will be materially improved. Plans are being considered by the committee to so arrange the classes that better work in the grades to be continued in the Kimball school, can be accomplished.

Good work, good service, growth, advancement and results have been the aim of the committee and Superintendent, and the committee are apprehensive that the parents do not fully realize the effort put forth by the Superintendent to advance the standard of our schools. He has done and is doing good work. He should be supported and encouraged.

The question of a night school has been before the committee the past year, the same as it has in previous years, and the town will be asked to authorize the establishment of a night school the coming winter, and some definite plan will be presented at the March meeting.

The close of the year calls for reflection, review and comparison. Looking back the committee feel that the schools are in better condition today than a year ago, we are keeping up with the times on lines proven to be good, we have avoided some bad ideas, and we have not been called on to correct many errors of judgment. We feel that to be of the highest service to the town requires time, thought, cool judgment and even temperament, it is for the parents to decide if the results of our efforts are pleasing, satisfactory and worthy of commendation.

Respectfully submitted,

WILLIAM G. MOSELEY,
HORACE A. CARTER,
MARY C. WHITNEY.

The above report does not show the actual work performed by this department, it being a record of the cases requiring court procedure only. The business of the department is increasing rapidly from year to year, not only in court cases, but in various matters which are coming up daily.

I would again call to the attention of parents, the fact that numerous cases of misdemeanors have been committed by boys during the past year, and while but few of the cases were prosecuted it was only through the leniency

of the parties interested that several others were not summoned into court.

A large per cent of these cases were the result of the boys loitering on the street at night; and, while no doubt the most of them were done in a spirit of fun, several were bordering on the criminal.

The co-operation of parents is solicited in keeping their boys off the streets after dark as much as possible.

I wish to thank your Honorable Board for the hearty co-operation you have afforded me at all times.

Respectfully submitted,

NORMAN MacKENZIE,

Chief of Police.

Report of Fire Department

Needham, Mass., Dec. 31, 1913.

To the Honorable Board of Selectmen: —

Gentlemen: I herewith submit the twenty-eighth annual report of the Needham Fire Department.

The total number of alarms for fire during the past year is forty, of which twenty were sent in from the signal boxes.

The causes assigned for the several fires are as per table:

Defective chimney	6
Rats and matches	1
Incendiary	5
Burning rubbish	2
Locomotive sparks	4
Children and matches	1
Spontaneous combustion	1
Gunners	1
Lamp explosion	1

The amount of hose laid for fire service during the year is 10850 feet, ladders used 460 feet, chemicals used 270 gallons.

The membership of the department is fifty-four including the Board of Engineers.

Repairs have been made on the two fire stations costing approximately one thousand dollars, the amount of the appropriation limiting the outlay to this extent. Additional repairs are necessary to continue the service of these houses.

The apparatus and equipment is in excellent condition.

In the interests of the new property erected on Marked Tree road and on account of the proximity of the fire hazard in the nature of woods, I would recommend a fire-

alarm box at the crest of the hill near the home of Carleton G. McIntosh. I would also renew the recommendation made last year for a fire-alarm box at the junction of Kimball and Grant streets.

Respectfully submitted,

H. HOWARD UPHAM,

Chief of Fire Department.

Report of Forest Warden

Needham, Mass., Dec. 31, 1913.

To the Honorable Board of Selectmen: —

Gentlemen: I herewith submit my fifth annual report as Forest Warden.

This office has issued eight hundred and forty permits during the year.

The careful watch from the observation tower at Blue Hill, a part of the state plan and the continuation of the policy of the rigid enforcement of the statutes relative to the setting of fires is appreciated, with the fact that no woods fires of consequence have occurred during the past year.

For the benefit of those who are not familiar with the Massachusetts Forest Laws, I append the following extracts: —

Extracts from Massachusetts Forest Laws

1. Setting fire to growing wood or timber of another. Punishable by a fine of not more than $100.00 or by imprisonment for not more than six months. R. L. 208, Section 7.

2. Letting fire escape. Negligently allowing fire to

escape from your own land to adjoining land. Punishable by a fine of not more than $250.00, also liable for damages. R. L. 208, Section 8-9.

3. Forest Wardens not liable to arrest for trespass. Wardens, Deputies and Assistants, not liable for trespass while acting in the reasonable performance of their duties. Acts 1907, 475, Section 6.

4. Permit to light fire in the open. In any city or in towns so voting a permit from the Forest Warden must be obtained to start a fire between March 1 and December 1. The only exception being that debris from fields, gardens or orchards, or leaves and brush from yards may be burned on ploughed fields by the owners thereof, their agents or lessees, but in every case such fire shall be at least two hundred feet distant from any forest or sprout lands, and at least fifty feet distant from any building, and provided further that persons above eighteen years of age may maintain a fire for a reasonable purpose upon sandy or barren land, if the fire is enclosed within rocks, metal or other non-inflammable material, but in every case such fire shall be properly attended until extinguished. Violation of this provision—punishable by a fine of not more than $100.00 or imprisonment for not more than one month or by both such fine and imprisonment. Acts 1908, 209, Section 1, as amended by Chapter 244, Acts 1911.

5. Arrest without warrant. The Forest Warden or any of his deputies may arrest any persons setting or maintaining a fire in violation of the provisions of this Act. Acts 1908, 209, Section 4, as amended by Chapter 244, Acts 1911.

6. Penalty for refusing aid. Any person between the ages of 18 and 50 years who refuses, without good cause, to assist the Forest Warden or his Deputies in the fighting

of forest fires is liable to a fine of not less than $5.00 or more than $100.00. R. L. 32, Section 21; 1907, 475, Section 3.

7. Disturbing notices. Whoever wilfully tears down or destroys any notice posted under the provisions of this Act shall be punished by a fine of $10.00. Acts 1907, 475, Section 7.

Respectfully submitted,

H. HOWARD UPHAM,

Forest Warden.

Report of Superintendent of Fire Alarm

Needham, Mass., Dec. 26, 1913.

To the Honorable Board of Selectmen.

Gentlemen: I herewith submit my first report as Supt. of Fire Alarm. Upon my appointment to the office last July I made a very careful inspection of the lines, boxes, tappers and central office, and wish to state that notwithstanding the report made to your board on Jan. 4 by the former superintendent, I found the system in very poor condition.

The circuits should be rebuilt through the whole town.

For years it has been the custom to repair only such sections as broke down, leaving the rest in a bad condition as long as it would hold together.

Each year a sum of money has been spent for such repair work and such will be necessary for an indefinite time should we continue in such methods, and at no time could we consider our system in a reliable condition.

In order to rebuild the system and put it in a first class condition it would call for an expenditure of about $3000.

This amount no doubt would seem too large for one year, but a portion of the system could be rebuilt this year and the remainder next year.

The other companies are planning to do considerable work this year. The town will benefit to a great extent if

we have the material on hand at the time in order that they may take care of our wires at the same time.

We have at the present time about 45 miles of wire, most of which is run above other wires of high voltage, and is in a very poor condition, liable to break at any time and cross with other wires, thereby causing damage.

In fact, the town has been very fortunate that no serious accident has occurred for which the town was liable.

I take this time to advise your board of the serious condition that now exists.

I would recommend that all our wires be placed under all others, thereby reducing the danger should a break occur.

My work since appointment has been repairing sections that were most dangerous, care of the central station and batteries, and other work in connection with street lights maintained by the town; also the care of all lights, bells and batteries in schools and other town buildings.

In conclusion I would respectfully recommend that the town appropriate a sufficient amount of money, not only to maintain the present sytem, but to rebuild at least two of the circuits, placing them in a first class condition, thereby insuring safety and reliability.

Yours truly,

C. H. COLLINS.

Report of Superintendent of Streets

To the Honorable Board of Selectmen.

December 31, 1913.

Gentlemen: I herewith submit my report of the highway department, from the time of my appointment April 1 to December 31, 1913.

Street Cleaning

Under this heading, the cleaning of catch-basins and dry-wells, and cutting of brush has been included.

Street Repairing

The work done under this heading might be better called patching, and is an important factor toward "good roads." Some form of machine, for heating patching materials is necessary, in order to get the best results.

Drainage

A large amount of drainage work has been done, and should give good results.

The culvert on Webster street, near Mr. Cornwall's, received extensive repairs. Several brooks that receive drainage from the streets have been widened and cleaned.

A drain has been laid through the land of James Pidg-

eon, at the foot of Rosemary Hill street, to take care of the water in that section.

A catch-basin and 75 feet of pipe were laid on Norfolk street, connecting with the drain under the railroad.

Drainage has been installed in Needham Heights on Highland avenue 461 ft., West street 728 ft., Mellen street 500 ft., Webster street 146 ft., including 9 catch basins.

Road Preservatives

This includes dust laying. This work has been extended to all sections of the town.

By purchasing a Studebaker spraying attachment for one of the watering carts, up-to-date methods were used, and proved economical and satisfactory.

I would recommend that more money be spent the coming season in this branch of work. Excellent results have been obtained by using Tarvia B, both as a road-binder and dust-layer.

37515 gal. Tarvia B. and 8045 gal. 40 percent asphalt oil were used, covering 180,000 sq. yds., at a cost of $2,694.46.

Bridges

Kendrick's bridge has been rebuilt, and will carry a heavier load than ever before. New piles and caps were put in, shortening the spans. The rest of the bridge except a few stringers, which were put in two years ago, is new. The work was done by the City of Newton, they paying one-half the cost.

Total cost was $1,585.66.

Snow

The snow plows were painted and put in good condition, and a good supply of sand has been stored, ready for sanding.

Street Signs

This work was well under way on April 1. New signs have been placed on many streets.

The following statement will show the expenditure of the highway department since my appontment, and the amount spent in different branches of the work:

Highway construction	$9,035.90
Highway repairs	1,635.55
Street cleaning	2,675.20
Bridges	912.40
Fencing	212.73
Drainage	2,473.04
General expenses	3,480.62
Road preservatives	*3,764.66
Sidewalks, new	3,641.90
Sidewalks, repairs	739.64
Snow and sanding	100.80
Street signs	201.30

Amount paid for labor and teaming as per payroll:

Labor, $7,707.50; teaming, $6,806.20.

Granolithic sidewalks and drainage in Needham Heights let out by contracts.

I would like to recommend that Highland avenue from Hunnewell street to West street, be rebuilt the coming season; also Great Plain avenue, between Pickering street and Webster street.

I mention these streets as they are so centrally located, and are past repairing. Many others need attention.

Respectfully submitted,

H. D. BLACKMAN,
Supt. of Streets.

* Includes cost of a Studebaker Pressure Sprayer, $275.00, and sanding labor, teams and sand, $795.20.

Report of the Building Inspector

January, 1914

To the Selectmen of the Town of Needham: —

The Building Inspector herewith submits the first annual report for the year ending December 31, 1913. The building laws were passed at the annual town meeting in March, 1913, and the Inspector, Mr. Karl W. Richards, was appointed by the Selectmen and assumed the office on May 7, 1913.

This office has received the hearty co-operation of both the builders and the owners of the town, and whatever infringements have been made on the building laws have been due to unfamiliarity of the law rather than any desire to break them, and such cases have been quickly and readily adjusted.

From May 7, 1913, to Dec. 31, 1913, this department has issued ninety-five building permits. These were distributed over the different months, and covered various classes of work, as shown in the following compilation: —

Month	Dwellings	Garages, Stables, Outbuildings	Public Buildings, Churches	Mfg. Bld. Stores	Repairs and Alterations	Total for Month
May . . .	2	. .	. .	. .	1	3
June . . .	6	2	2	1	5	16
July . . .	6	. .	. .	3	1	10
August . .	5	2	. .	1	2	10
Sept. . . .	8	1	. .	2	3	14
Oct. . . .	4	. .	3	1	3	11
Nov. . . .	8	1	. .	2	1	12
Dec. . . .	10	3	1	3	2	13
Totals . .	49	9	6	13	18	95

The building laws as a whole seem to meet our local requirements with a few possible exceptions, where some slight changes would be of a benefit both to the town, the builder and the owner. It is hoped these modifications may be obtained through the necessary legal proceedings at the earliest opportunity.

Respectfully submitted,

KARL W. RICHARDS.

Report of the Superintendent for Suppression of Gypsy and Brown-Tail Moths

To the Honorable Board of Selectmen:

Gentlemen: I herewith submit the report of the moth department for the year ending December 31, 1913:

The same general methods have been followed this year as previously.

The residential districts of the town are in very good condition, except in a few places near infested woodland. Many of our woodlands are becoming gradually worse and will probably continue to do so unless some natural condition arises to prevent, as the most we can attempt in the larger colonies, is to keep the moths from spreading by spraying along the roadsides and around the edges.

Owners of infested woodlands might greatly improve conditions by a judicious thinning of the trees and removal of the brush.

In many cases the removal of at least one-half of the trees would add much to the appearance of the woods and be a safeguard against fire as well as a great help in moth destruction.

It is a strange fact, however, that in nearly all cases where this work is done by inexperienced persons the very

trees whose removal would be most beneficial are allowed to remain.

Many owners of woodland show a decided preference for the white oak, which is a favorite food of both the gypsy and browntail moths, and should be removed wherever possible.

The evergreens, such as pines, spruces and cedars, are almost immune from moth attack, as are also the maples and white ash. Woods composed of these trees would be practically free from any trouble of this kind, while the oaks, especially the white, are a source of constant expense. A few of the woodland colonies of the gypsy moth show a slight improvement over last year, probably on account of the appearance of a disease known as the wilt which breaks out at times when the moths become numerous enough to cause serious defoliation of the trees. This occurs only after much damage has been done, and in some cases after many of the trees have been killed.

I am glad to report a great increase of the large beetle known as the calasoma, which was introduced several years ago by the government.

About eighty pairs of these were liberated in Needham and they have increased to such an extent that they are now to be found in all parts of the town, and in some colonies they destroyed probably fifty percent of the gypsy moth caterpillars during the past summer.

While the destruction of at least ninety percent is necessary to prevent an increase the work of this beetle is a great help, and together with the smaller parasites and other natural agents may eventually solve our problem to a great extent, especially in the woodlands.

Much complaint was received during the early summer of damage done by the tent caterpillar, many persons mistaking it for the gypsy moth. While very destructive in

orchards this insect feeds on only a few species of trees and is easily controlled by spraying.

This pest is ordinarily kept down by parasites, and while very abundant at times, may almost disappear for long intervals.

This department has no authority to destroy the tent caterpillar on private property, and can only improve roadside conditions by spraying and removing the wild cherry trees which are practically the only forest tree on which it feeds.

Respectfully submitted,

E. E. RILEY,

Local Superintendent.

Report of the Tree Warden

The dry weather of the past four or five years has been very trying to our roadside trees, even causing the death of some which were of good size, and a scalding or browning of the foliage of many, especially the rock maples. This affected trees of all sizes, in some cases nearly destroying the foliage.

The elms were sprayed as usual and the difference between the sprayed trees on the highway and the unsprayed has again demonstrated the great advantage of this work.

Twenty-six small trees were planted in the spring. These were all protected by guards of wire netting and some were staked.

This protection, while it greatly increases the cost, seems absolutely necessary for the preservation of the trees. I realize that many more should be planted annually, and plan to set out one hundred next spring if conditions admit.

It is useless to do this on streets where the grades and sidewalks are not permanently established, as many of our finest trees have been seriously injured by the removal of loam and cutting of roots incident to reconstruction.

The expense of planting a tree, including first cost, guarding, removal of soil and replacing with good loam, is, approximately, three dollars.

The cost of spraying the elms is about four hundred dollars, and there is much trimming and similar work necessary each year to keep the older trees in even fair condition.

Many of our trees contain cavities which should be cleaned out and cemented to prevent further decay. Accordingly, it seems advisable to plant only as many young trees annually as can be properly cared for and to reserve enough of the appropriation for work which is absolutely necessary.

The leopard moth has been slightly in evidence during the summer. As this is a boring insect the only method of destroying it is to cut off infested branches and burn them.

This means a very careful and minute examination of even the smallest branches of the entire tree, making it so expensive as to be impracticable.

This moth is much more injurious in cities than in the country, probably because certain species of woodpeckers which feed upon it are seldom found in cities.

Report of the Inspector of Wires

December 31, 1913.

To the Honorable Board of Selectmen.

Gentlemen: The town's responsibilities as coming under the jurisdiction of its wire department have steadily grown until now they are a matter calling for unremitting daily attention at the hands of your Inspector. And, corroborative thereof, he takes this opportunity to apprise you of the fact that during the year past two hundred and fifty-three individual installations at a constantly increasing ratio, have been inspected and approved in the course of his routine duties. This, he begs to inform you, betokens a truly extraordinary and locally unprecedented extention of both the "domestic" and "power" electric service of the town.

He furthermore finds it appropriate to advise that results are already tangible due to the pains your honorable board has taken to support its Inspector in his solicitations to the Edison Company for what seemed reasonable improvements in their general service. Not that the same have by any means been entirely consummated, but the new poles have arrived on ground, and the work is already under way at School street and Dedham avenue,

Webster street and Great Plain avenue, and the corner of Hunnewell and Hillside.

However, the bulk of these promised changes are yet to come into being, including as they do the elimination of two out of every three poles on Chestnut street, and Dedham and Great Plain avenues, by the substitution of a single set of "tri-party" or "union" poles, to be used in common by all three wire companies. But your Inspector aims to assume the responsibility of seeing to it that the prosecution of this work is not allowed to lag unnecessarily during the ensuing year.

Finally, he begs space to acknowledge the encouraging interest of the honorable board in the town's electrical welfare, the same being largely contributary in bringing to pass the above-noted improvements in the service.

Respectfully submitted,

DENYS ZIRNGIEBEL,

Inspector of Wires.

Report of the Board of Selectmen and Overseers of the Poor

To the inhabitants of the Town of Needham:

We herewith submit our annual report for the year 1913, together with our recommendations for current year.

Superintendent of Streets.

On March 21, 1913, Mr. T. Parker Clarke resigned as Superintendent of Streets, and Mr. Henry D. Blackman was appointed to take his place. Mr. Blackman has filled the office with credit to himself and the town.

Bridges.

This year Kendricks Bridge was rebuilt. One-half the cost of same was borne by City of Newton. The other bridges are in good condition with the exception of a few minor repairs.

Highways.

After a thorough investigation and a public hearing at which the needs of different sections of the town were presented, we feel justified in recommending the sum of $25,000.00, together with the street railroad and excise tax to

be appropriated for highway purposes for 1914. To be expended as follows:

Salary and conveyance of Superintendent.....	$1,500.00
General repairs	3,500.00
Tar and Oil	5,000.00
Spring cleaning	3,000.00
Great Plain avenue, from Wellesley line.....	3,000.00
To which we hope to add the sum of $2,000.00 from the motor vehicle fund.	
Gt. Plain Ave. from Pickering to Webster Sts..	2,000.00
Gt. Plain Ave., from Glancey Hill to Greendale Ave.	1,000.00
Pickering St., from Gt. Plain to May St.....	1,200.00
Charles River St., from Pierces to R. R.....	1,000.00

Sidewalks.

Demand for granolithic sidewalks this year has been met in nearly all cases, and we recommend the same amount should be appropriated as last year.

Care and Support of Poor

The work of the Poor Department has increased materially over last year, all cases being properly cared for.

Chapter 763 of the acts, 1913, to provide aid to widowed mothers with dependent children will throw additional

expense on this department. The establishment of a separate board of overseers will improve its efficiency.

Police.

The creation of the office of Chief of Police has placed this department on a sounder basis, and we recommend that the chief be on duty in the daytime, and an additional night officer appointed.

Fire Alarm.

The system needs a thorough overhauling. For details, see report of Superintendent. We recommend the consolidation of the office of Superintendent of Fire Alarm and Inspector of Wires.

Elections.

For the convenience of the voter, we recommend that a division of the town be made into two voting precincts, in accordance with Sec. 166, Chap. 11, of the revised laws.

List of Jurors

Inhabitants of the Town of Needham, designated by the Selectmen to act as Jurors for the year 1914, under Chapter one hundred and seventy-six of the Revised Laws and Amendments thereto.

NOTE.—At the annual meeting held March 3, 1913, authority was given to issue $20,000.00 4% water bonds, dated September 1, 1913, but the money market was such between the first of July and the latter part of the year that 4% bonds could not be sold. At the special meeting held October 2d, 1913, additional authority was given to issue $20,000.00 4½% water bonds to be dated September 1st, 1913, and the rate on the amount authorized at the March meeting was changed from 4 to 4½%, thereby furnishing authority to issue $40,000.00 4½% water bonds to be dated September 1st, 1913. Prior to the October meeting it was found necessary to issue temporary notes in anticipation of the issue of water bonds to take care of payments due September 1st. By the issue of the temporary notes and a little assistance from the general fund, all obligations were taken care of and it developed that soon after the first of December bonds bearing 4% could be sold, and your treasurer feeling it was much to the advantage of the town to issue four per cent instead of four and one-half per cent bonds, did not make any effort to place the four and one-half per cent bonds on the market. At the annual meeting to be held in March 1914, a request will be made to change the rate of interest from 4½% to 4%. By this action all bonds of the water department will bear 4%.

Report of the Board of Health

To the Inhabitants of the Town of Needham:—

The Board of Health submits herewith its first report, together with recommendations for the current year. As you well know this Board has been only recently organized, and we have not yet gotten this department in running shape, although an immense amount of work has been done and considerable progress can be reported. The Board organized shortly after election with Dr. E. A. Crossman as chairman and Mr. V. A. Rowe as secretary.

Our town has been most fortunate in being able to become associated with the towns of Wellesley, Weston, Natick, Belmont, Melrose, Framingham, Canton and other towns in co-operative inspection and laboratory facilities under the direction of the Associated Boards of Health, a co-operation under the control of the Department of Public Health of the Massachusetts Institute of Technology, an organization financed by the Institute with an appropriation from the Federal Government. This agreement was entered into for one year as an experiment and has proved so satisfactory that the Board is contemplating a continuance. The appended report of the agent of the Board, Mr. Hoyt, shows in detail what has been done in the town.

The unusual high standard for the town in the health of its citizens should be noted. We wish to call your attention to the fact that monthly inspections of all milk distributed in Needham has been made, and reports published from time to time, resulting in the unusual high grade of milk being distributed to the inhabitants of this town, the analaysis showing it to be superior to milk furnished to other towns in the surrounding territory.

The Board has composed a code of regulations which have been posted in various places and are being enforced.

Our agent, as you will note, has made frequent investigations of all complaints made by our citizens and many nuisances have been abated.

The question of the exterminating of flies and mosquitoes has been taken up, and we desire to thank the New Century Club of Needham for its assistance in this campaign. It is quite desirable that Needham should keep its standing with the other towns in our district in this matter.

In following up this subject, the assistance of the inhabitants of Needham is necessary for the success of this undertaking.

It is recommended that a system of garbage collection be instituted for the thicker portions of the town, covering an area now receiving mail by carrier, and the Board is making investigations along this line.

An article will be inserted in the warrant for your action at the regular meeting in March.

It is earnestly recommended that steps be taken, at least on our most important thoroughfares, to have oil or tarvia spread early in the spring and that it cover the entire street from gutter to gutter. Statistics show that during this time illness is increased and it is a matter of public economy that this matter be attended to.

It is necessary that in the future a larger appropriation be made for this department in order to carry on its work.

The town is rapidly approaching a size when better sewage facilities must be had. We have been informed by an expert that we possess the natural geological facilities for an independent sewage system with our own filter beds which can be maintained at a much lower cost than if we associated ourselves with the Metropolitan Sewerage System. The nature of our soil in most parts of the town, that is of sand and gravel, make it particularly adapted for taking care of sewage under our present system of cesspools, but a small area at Needham Heights where the subsoil is of clay will need the attention of the town in a few years and plans for a small sewage system will be necessary. Your attention is called to a recent law which prohibits the building of stables for horses without a permit from the Board of Health, it being necessary to submit plans to the Board.

The Board wishes to announce that it is now permanently located in its new office in the town hall, and it is intended to have some member of the Board on hand Wednesday evenings to hear complaints, answer questions, receive suggestions, etc. It is necessary perhaps to caution our citizens against being too impatient with the work of the Board of Health because we realize many complaints cannot be attended to quickly, and the cooperation of all is earnestly requested.

Respectfully submitted,

E. A. CROSSMAN.
VIRGIL A. ROWE.
J. WALTER SCHIRMER.

Report of the Agent of the Board of Health

Board of Health, Needham, Mass.

Gentlemen: I submit herewith the annual report of your agent for the year ending December 31, 1913. Through your contract with Prof. Phelps, the services of the Co-operative Public Health Organization was secured April 1. I have acted as your agent from that time up to the end of the year.

Occurrence of Communicable Diseases

Thirty-five (35) cases of communicable diseases were reported to the board of health during the year 1913, as against thirty-two (32) cases for year 1912. Number of cases of all diseases for 1912 and 1913 are given in the following table:

Table No. 1.	Cases of Diseases	
	1912	1913
Tuberculosis	6	9
Diphtheria	4	11
Measles	20	7
Scarlet Fever	0	3
Typhoid Fever	1	2
Anterio Poliomoltis	0	1
Erysipelas	0	1

Varicella	0	1
Whooping Cough	1	
	32	35

The number of cases of disease given above are simply the number reported and the increase indicates increased faithfulness on the part of physicians rather than greater prevalence of any of the diseases. This is especially true in the case of tuberculosis, a disease in which all cases are never reported. A study of this disease indicates that at least eight cases should be reported for every death which occurs. Five deaths from tuberculosis were reported, indicating the existence of about forty cases. The majority of the cases of diphtheria were associated with one dairy where the milk was infected by a milker having so light a case of diphtheria that the case was not discovered until the outbreak of this disease on the milk route led to the taking of cultures from the throats of all employes at the dairy. The infected person was removed and the dairy premises disinfected. Failure to have taken this prompt action might have led to a bad epidemic of diphtheria.

Deaths from Communicable Diseases

No deaths from communicable diseases other than tuberculosis were reported during the year.

Control of Communicable Diseases

The laboratory has proved to be a valuable aid in diagnosing communicable disease. Free examinations for diphtheria, tuberculosis, typhoid fever, malaria, gonorrhea and syphilis are offered to the physicians practising in Needham. Outfits for obtaining specimens have been kept at Maloney & White's drug store. The large number of diagnostic tests made during the year indicate that the Needham physicians have appreciated the services of the diag-

nostic laboratory. Following table shows in detail the nature of the 149 tests made during the ten months during which I have acted as agent. Miss Beckler, the bacteriologist, has had unusual training and experience in all laboratory diagnosis. The equipment for the laboratory is equal to that found in the larger cities.

Each case of communicable disease has been visited promptly. Houses have been placarded in cases of diphtheria and scarlet fever. History of the cases has been written up, with the purpose of discovering the source of infection, and instructions are given for the isolation of the patient so that the other members of the family may not spread the disease. School attendance or other employment has been stopped until danger was over, unless the person in question is removed from the infected premises before exposure. To assist in the prompt control of communicable diseases, the board of health has furnished physicians' outfits to all doctors practicing in Needham. These cases contain directions for reporting cases, recoveries or deaths from these diseases to the board of health and all material which were used in such reports. Free liquid disinfection has been furnished to the nurse or attendant in charge in cases of diphtheria, scarlet fever and typhoid fever. I believe that bedside disinfection of all infectious material is essential to the proper control of these diseases. Thorough disinfection has been performed after the recovery, death or removal of cases of scarlet fever, diphtheria, and typhoid fever and tuberculosis. This disinfection consists in the treatment of infected bedding, clothing, woodwork and furniture with the liquid disinfection. Fumigation of the room by evaporated solidified formaldehyde. Blankets, woolen clothing are exposed to the disinfecting action of the sun after being fumigated.

Following tables indicate the number of buildings and rooms fumigated during the last 10 months of the year.

Special fumigation of knit goods from the factory was performed in two houses.

Table No. 3.		Fumigations.		
Diphtheria	buildings	11	rooms	20
Scarlet fever	buildings	1	rooms	2
Typhoid fever	buildings	3	rooms	3
Tuberculosis	buildings	1	rooms	1

Monthly Water Supply

Monthly examination of the town water supply has been made and no evidences of contamination has been found.

Ice Supply

Careful inspection of the region of Rosemary Lake was made with a view of discovering any source of pollution of this body of water which is used for the ice supply of Needham. Two overflowing cesspools near the shore of the lake were found and new cesspools were connected at once. A privy vault was found dangerously near; this was ordered cleaned out and abandoned.

Milk Supply

Samples of milk have been taken without any warning each month from each of the dealers supplying milk in Needham. Where possible, the dealer's wagon is stopped and a bottle of milk intended for a customer is taken by the inspector from the wagon. This bottle is taken to the laboratory, packed in ice and examined at once to determine the number of bacteria, and the percentage of butter fats and total solids. The examination of the number of bacteria has been for the purpose of discovering any dirty or careless handling of milk, while the other analysis has been made with the purpose of discovering the milk which has been watered or skimmed, or for any reason fell below the state standard of richness. The following table gives the results of the milk tests:

Table No. 4.

Milk Tests

Samples of milk examined for bacteria count	78
Samples examined for lencocytes and streptococci	25
Samples examined for sediment	11
Samples tested for chemical composition	48
(Below standard)	10

Bacteriological Examination of Milk Samples

Bacteria per cubic centimeter	No. of Samples	Percentage
Below 10,000	28	36
10,000 to 20,000	20	26
30,000 to 50,000	11	14
50,000 to 100,000	6	8
100,000 to 300,000	1	1
Total samples under 300,000 (*)	66	85
300,000 to 500,000	4	5
500,000 to 1,000,000	3	4
1,000,000 to 2,000,000	3	4
Over 2,000,000	2	2
Total samples over 300,000	12	15

The milk tests show that there were ten (10) samples below the state standard of richness. In these cases the dealers in question brought their supplies up, at once, to the state standard. 85 percent of the samples contained under 300,000 bacteria, the maximum allowed by the Needham Board of Health.

Complaints and Nuisances

Twenty-eight complaints were received in the nine months during which I have acted as agent. The complaints and their disposal are as follows:

* Maximum allowed by rules of Needham Board of Health.

	Abated	Pending	Complaint in Error
Privies insanitary	2	1	3
Cesspools overflowing	9	1	2
Cesspool cleaning offensive	2	0	1
Pigpen offensive	2	0	0
Dead animal offensive	1	0	0
Manure offensive	0	0	1
Garbage a nuisance	1	0	0

Two persons were licensed to clean cesspools and privy vaults and required to report at intervals the location of all cesspools cleaned and the disposition of the contents.

Respectfully submitted,

ROBERT N. HOYT,
Agent.

The report of the librarian will give particulars as to the use of the library in 1913. It is an interesting fact that the increase in the circulation of books at the library in the town hall has been so large that if a corresponding gain is made in 1914 the statistics of the State Library Commission will show that few towns in the Common-

wealth, of equal population, exceed Needham. The circulation of magazines has doubled within one year. If the library now in the town hall is continued there or given an equally good place elsewhere on the ground floor of some accessible building, its field of usefulness will continue to expand, notwithstanding the constant competition of circulating libraries. Removal to rooms up stairs or to an inconvenient location, would at once largely diminish its value to the community.

The trustees have planned for a delivery station at Greendale, and the arrangements are practically made. As is well known, Miss Glancy of the Harris school has for years attended to the transportation of books for the use of the children in that locality.

Many of the books are purchased because requests are made for them, but we have had no form for such requests in use, with some resulting uncertainties. Hereafter the trustees propose to have an application blank, as brief and simple as possible.

During the year some two hundred badly worn out books, yet still readable with careful handling, have been withdrawn from circulation and sent to Dr. Wilfred Thomaston Grenfell's mission in Labrador.

In 1913 the following rules were adopted: "1. Two fiction books may be taken on the same card," this means one seven day book and one older one, in no case two new books. The other rule is: "2. A book, for which a reader has been waiting, may be saved at the desk, by making arrangements with the librarian and paying a fine of two cents a day for the period during which it is held." This rule was copied from that of other public libraries in Massachusetts, but it is an error to assume, as some persons appear to have done, that this privilege has been extensively availed of in Needham. About twenty-five books only have thus been reserved during 1913 and in

no case for more than two days; moreover, in most instances the library owned two copies of the book thus reserved, and one copy was free. This rule was adopted because some users of the library wanted it, but if it is found to be unfair the trustees will not continue it.

The library has for years suffered from the frequent change of assistants, although their compensation has of late been liberal for the time required of them per week.

Miss Johnson is faithful and devoted to her duties, and has the ideas and characteristics of a trained librarian.

Respectfully submitted for the Trustees,

GEORGE K. CLARKE, Chairman.

Twenty-fourth Annual Report of the Water Commissioners

To the Inhabitants of the Town of Needham, Massachusetts:

The Water Commissioners herewith submit their twenty-fourth annual report for the year ending Dec. 31, 1913.

At the annual town meeting in March, Mr. Edmund G. Pond was re-elected water commissioner for a term of three years.

The board organized by electing Mr. William Carter chairman, and appointing George A. Adams clerk.

Extensions.

For extensions see Superintendent's Report.

Increasing and Protecting the Water Supply.

Following the plan suggested in our report of last year, a new pumping station 40x60 feet has been erected with a fireproof coal pocket attached. The work was done by Wilson & Tomlinson of Boston under the supervision of L. D. Litchfield of this town, at a cost of $12,932.55, including architect's fees. The building has a concrete foundation and underpinning, the walls being of tapestry

brick and the roof covered with slate, making a substantial and attractive building and suited for the future growth of the town.

We have also purchased from the Laidlaw-Dunn-Gordon Co. of Cincinnati, Ohio, a horizontal, cross compound pumping engine of 1 1-2 million gallons daily capacity, with a guaranteed duty of 118,000,000 foot pounds for a contract price of $8,015.00 with a bonus and penalty attached. The pump is being operated nearly every day and will be ready for the official test during the month of February.

We have purchased the land between the pumping station and South street from the Colburn heirs, and also the equity belonging to Samuel O. Fowle on the land and buildings between South street and the Charles River, thus giving a right of way to the river should it seem advisable to pump from a filter gallery to the basin in the dry months of the year.

Five thousand white pine trees (transplants) were set out in the early spring on the Colburn farm reservation, and we propose to follow this plan each year until the reservation is practically covered.

For extension of main and services see Superintendent's Report.

Bonds.

The legislature of 1913 authorized the town to issue additional water loan bonds to an amount not exceeding fifty thousand dollars, making the total authorization three hundred thirty thousand dollars.

Bonds to the amount of $6,500 have matured and been paid during the year, as provided by Chapter 259 of the Acts of 1900, and in accordance with a vote of the town passed June 28, 1900. The outstanding bonds mature as follows:

There is a difference between the above figures and the financial report of the selectmen of $5.17, caused by the cancellation of check on account of police (court fees) of $5.98, because of error in court returns, and the addition to incidentals of 81 cents, being a refund on the account of abatement of a paid tax.

Bills for 1913 have been sent to Audiior's office as follows: —

Highways,	$1,142 45
Fire Alarm,	16 55
Salaries,	1,075 01

Police,	27 49
Printing and Stationery,	45
Fire Department — Engineers,	25 00
Leaving a total deficiency of,	$5,511 21

To cover this amount there was appropriated at the January Town Meeting $3,758.89, leaving a balance now due of $1,752.32, which cannot be paid until a further deficiency fund is appropriated. These bills were either held for lack of funds or were received after the books were closed on January 8, too late to include in last year's

payments. This last will reconcile the fact of there being a balance turned back to the general fund, when there were bills unpaid.

The principal items are for charges in December, but in some cases the items were older, as for instance, Incidentals contains one charge for legal expense covering some months of $374.15, and a charge for tuition in Vocational School at Newton, of $195.00. Salaries cover the general salaries of all officers for December and balance due collector on 1911 taxes, and amount due on account of 1913 tax collection.

Respectfully submitted,

ARTHUR E. SMITH, Auditor.

TOWN OF NEEDHAM

ANNUAL REPORT

OF THE

BOARD OF ASSESSORS

FOR THE YEAR 1913

NEEDHAM
THE CHRONICLE PRESS
1914

Assessors' Report

In submitting onr report for the year of 1913 we are pleased to report a steady growth of our town.

At the meeting in March an appropriation of $500 was made in order that a Block System could be started.

The contract was awarded to Mr. Hamilton Flood of Quincy, and the work done by Mr. R. W. Loud of Weymouth. We are pleased to state that the work was very satisfactory.

The survey of the section which they made showed considerable gain in the amount of land and proved that such work should be continued each year.

We shall ask for the same amount this year and trust that it will be granted.

We have also adopted a card system this year which has proved to be of great assistance in our work and which enables us to keep better records of property.

The new law whereby the Building Inspector is required to furnish our department with a copy of each permit issued by him, enables us to keep in better touch with new buildings and additions.
